FIVE YEAR TRAFFIC COUNT SUMMARY
2007 Through 2011**

The Five Year Traffic Count Summary is a compilation of the Annual Daily Traffic volumes reported in the Annual Traffic Count Summaries for the previous five years. Since a number of factors may impact count data collection from year to year, such as construction on neighboring roads, holidays, special events, etc., caution should be exercised when using this data for comparison purposes.

Annual Daily Traffic Counts are calculated by taking the average of a one to five day, non-holiday, weekday count

If a count location is counted more than once per year, then the number reported is the average of the Average Daily Traffic Counts for each individual count location

N.C. = No count due to equipment or hose failure
 Const. = No count due to road or building construction
 * = Count was influenced by nearby construction
