

**EL DORADO COUNTY  
COMMUNITY DEVELOPMENT SERVICES  
DEPARTMENT OF TRANSPORTATION  
FIVE YEAR TRAFFIC COUNT SUMMARY  
2015 Through 2019**

The Five Year Traffic Count Summary is a compilation of the Annual Daily Traffic volumes reported in the Annual Traffic Count Summaries for the previous five years. Since a number of factors may impact count data collection from year to year, such as construction on neighboring roads, holidays, special events, etc., caution should be exercised when using this data for comparison purposes.

Annual Daily Traffic Counts are calculated by taking the average of a one to five day, non-holiday, weekday count

If a count location is counted more than once per year, then the number reported is the average of the Average Daily Traffic Counts for each individual count location

N.C. = No count due to one or more of the following reasons; construction, logging, fire, equipment failure

\* = Count was influenced by nearby construction

^ = Count Volume listed was taken after the Silva Valley Interchange was opened

Pavement Condition Index (P.C.I) is a measure of roadway pavement condition: 85-100 = Excellent, 70-85 = Very Good, 50-70 = Good, 25-49 = Poor, 10-25 = Very Poor, 0-9 = Failed
